Industry-ready eLearning SCORM WHS compliance templates

Vmation is part of the **Queensland Government Standing Offer of Arrangement** with OIR for Instructional Design Services. This panel are experienced and qualified suppliers in the learning and development, training and education, and digital content creation spaces for instructional design work, for internal educational resources.

**Queensland
Government**

Vmation is a pre-qualified supplier under **Local Buy**, enabling streamlined procurement for councils, government agencies, and not-for-profits. This status ensures compliance, quality, and value without the need for a full tender process.

For your peace of mind, we are an accredited supplier to the **Australian Government (GITC/QITC #Q-6598)**. This is a rigorous process which verifies that Vmation as a provider is financially sound and has the necessary processes in place to service government entities.

| 20 Moving Vehicle Safety | |

Course Learning Objective Examples

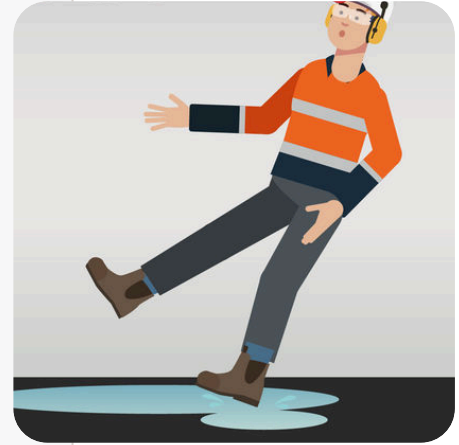

CORE

Fire Incidents

This course on workplace fire safety provides essential training on **preventing and responding to fires** in the workplace.

It covers the **types of fires** and their hazards, the importance of **fire prevention measures**, and the role of employees in maintaining a safe environment.

 [Fire Incidents Course](#)

CORE

PPE

Personal Protective Equipment, or PPE is a vital aspect of any job site – protecting you from injury or even death.

It **reduces employee exposure to hazards** in cases where other control measures haven't been effective in removing or minimising risk to workers' health and safety.

Depending on the job, and nature of the risks involved, different kinds of safety equipment may be required.

 [PPE Course LMS Demo](#)

Course Learning Objective Examples

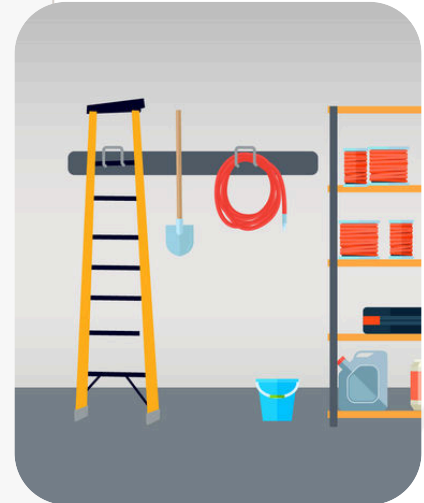

CORE

Ladder Safety

This course covers **important safety information** regarding the use of ladders in the workplace, including: when to use a ladder, how to choose the correct ladder for the job, safe ladder usage, maintenance best practices, and incident preparedness.

Following proper ladder safety procedure will **minimise risk of injury on the job**, and is also required by law. Noncompliance could result in fines and the closing of the job site.

 [Ladder Safety Course LMS Demo](#)

CORE

Electrical Safety

This course covers **important safety information** regarding risks involved when working around **electricity**. Death and serious injury can occur as a result of exposure to electrical hazards on construction sites.

By the end of this course, staff will understand the risks involved when working around electricity, which will **minimise their risk of injury**.

 [Electrical Safety Course LMS Demo](#)

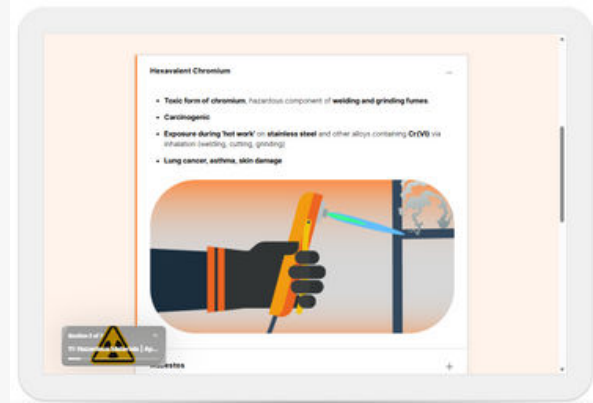

TARGET AUDIENCE

- ✓ **All employees**, with a focus on those in high-risk environments.
- ✓ **Supervisors** and **managers** who oversee safety compliance.
- ✓ **New hires** as part of their induction.
- ✓ Existing employees as part of **annual refresher training**.

REVIEW

We will first provide the courses via a review link, allowing you to **review**, **provide feedback**, and **approve** the course content to ensure it meets your organisation's regulatory, legal, and internal compliance requirements.*

Compliance can include **Acknowledgements** and **Certificates of Completion**

Certificate of Completion

Congratulations!

You have passed the assessment on ladder safety.

To successfully complete the course, please read the below declaration and tick all to confirm your understanding.

I acknowledge and agree with the following:

- ☐ I have a responsibility to follow best practices for ladder safety, including proper usage, inspection, and storage of ladders, to prevent workplace injuries.
- ☐ This online course is designed to provide commentary and general information only. The contents do not constitute legal advice and should not be relied upon as a substitute for advice specific to ladder safety.
- ☐ I have read and understood the information provided in this course. If I have any questions or require further clarification, I will raise them with my supervisor or a senior manager.

COURSE CREATION IN ARTICULATE 360

Courses

Each course is developed using government approved software Articulate 360

Responsive design

Our courses are built with responsive design, ensuring a seamless experience across all devices—desktop, tablet, or mobile. Learners can access content anytime, anywhere, with layouts that automatically adjust to fit different screen sizes, maximising accessibility and engagement.

Animated content

Bring concepts to life with animated content. Courses make complex information easy to understand, visually appealing and memorable, helping learners retain knowledge effectively and stay motivated throughout each course.

Knowledge checks + quizzes

Reinforce learning and gauge understanding with interactive knowledge checks and quizzes. These tools allow learners to test their knowledge as they progress, providing instant feedback and helping them build confidence as they master key concepts.

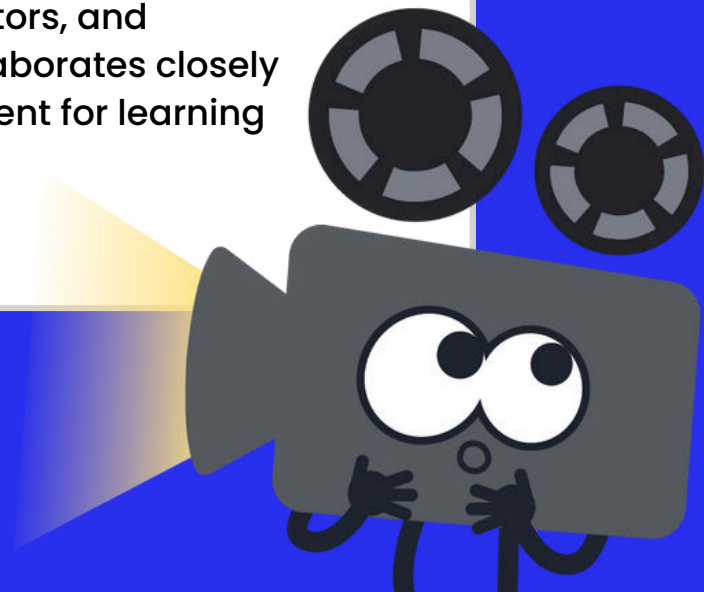

understand critical points, practices, helping organisations minimise risks and maintain compliance effortlessly.

Vmation is a leading provider of video, animation, and eLearning solutions, partnering with both Government, RTO's and corporate clients to deliver engaging, outcome-driven learning experiences.

As your **full-service content partner**, we develop bespoke solutions aligned with your organisational goals and tailored to your learners' needs.

Our **in-house creative team** – made up of skilled videographers, animators, and instructional designers – collaborates closely to craft highly engaging content for learning pathways.

BESPOKE CONTENT

Our bespoke eLearning courses cater to the growing demand for training solutions in commercial applications crafted using **Articulate 360** for seamless integration into your existing Learning Management System (LMS).

We seamlessly incorporate video, animation, and interactive experiences into dynamic courses which capture and retain learners' attention effectively.

VIDEO & DRONE

With over a decade of experience in drone videography, Vmation delivers elite-level expertise and creative vision through our videography services.

Drone cinematography is a highly specialised discipline that requires more than just technical skill — it demands a fusion of aeronautical knowledge, environmental awareness, and cinematic artistry.

As a fully licensed Remote Pilot (RePL) and Chief Remote Pilot (CRP), our Head Producer Stephen Bergin is responsible for maintaining our Remote Operator Certificate (ReOC), ensuring that every drone shoot complies with the highest standards of safety, legality, and professionalism.

MARKETING & DESIGN SUPPORT

Marketing & Graphic Design Services

With our extensive experience across various marketing verticals such as brand, communications, content, design, and reputation management, our focus is on creating visually appealing marketing collateral in-keeping with your organisation's brand and core values while maintaining your corporate identity.

Our collaborative approach ensures message consistency throughout your brand, preserving a cohesive corporate identity by developing digital assets that complement your branding.
